Approx.)

RB METROLOGY

In 2008, RB Metrology started exporting and wholesale supplying tremendous quality with subcategory products of Contour Measuring Machines, Conveyor Systems, Coordinate Measuring Machine, Laser Marking Automation, Led Lens Flood Light, Profile Projector, Video Measuring Machines, Street Light, and many testing equipments. Our machinery is highly tested and able to deliver perfect productive results in industrial, and commercial uses. With complete features and excellent performance, the instrument is widely appreciated by distinguished clients. Multiple operating systems, modest capabilities, a complete controlling panel, and many more features of our product appreciate customers to attract towards it. The competitive prices are designed by our experts according to their quality parameters. With the expert quality of packaging material, w

In 2008, RB Metrology started exporting and wholesale supplying tremendous quality with subcategory products of Contour Measuring Machines, Conveyor Systems, Coordinate Measuring Machine, Laser Marking Automation, Led Lens Flood Light, Profile Projector, Video Measuring Machines, Street Light, and many testing equipments. Our machinery is highly tested and able to deliver perfect productive results in industrial, and commercial uses. With complete features and excellent performance, the instrument is widely appreciated by distinguished clients. Multiple operating systems, modest capabilities, a complete controlling panel, and many more features of our product appreciate customers to attract towards it. The competitive prices are designed by our experts according to their quality parameters. With the expert quality of packaging material, we are capable to manage the quality of products.

The guidance of Mr. Dinesh Ahuja (Company CEO) plays a vital role in growing the business in a well-organized way. His obstacle-handling policy and customer interaction deals help in guiding the team. From Kirti Nagar, New Delhi we are actively delivering our product at a global level.

Video Measuring System

Being quality-oriented our company is supplying the Video Measuring Machine for measuring accurately the 3d measurements of thermometers, barometers, speedometers, fuel gauges, and many more. It is portable to rotate along 3dimesnional to visualize the complete picture description. It can be configured with computers and software to get the outputs.

Product Details:

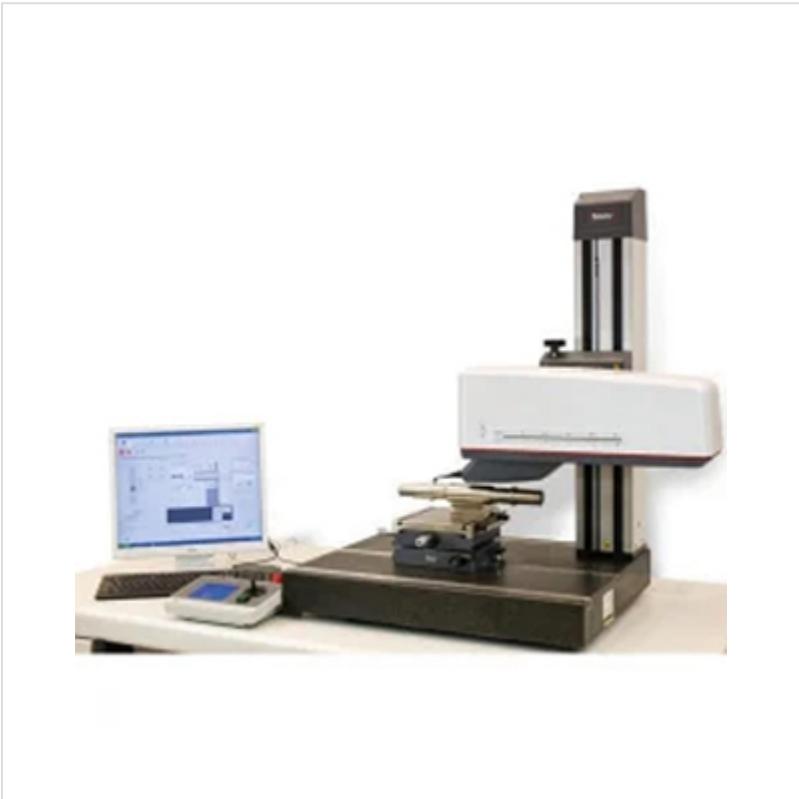

MOQ	1 Set
Image detecting unit	Color CMOS camera 3 megapixels
Machine Type	Video Measuring Machine
Light Path	X, Y-axis
Packaging Material	Cartoon Box

Contour Measuring Machine

This Contour Measuring Machine generates a 3D surface map by passing a sensitive stylus across the surface at a time-reversed distance. It is also known by the name Profile Projector and is widely used in optical industries and glass measurements. The machinery can rotate along the X, Y, and Z axis rotation. We are supplying this machinery at economical prices.

Product Details:

Type	Measuring Machine
Machine Type	Automatic
Quality	High Quality
Material	Steel
Minimum Order Quantity	1 Set

3D Coordinate Measuring Machine

3D Coordinate Measuring Machine is a kind of machinery used in geometry measurement. It is computer-controlled, and the axis to rotation along the X, Y, and Z axes. It is widely used in the optical measurements industry, 3D measurements, laboratory, and industrial uses.

Product Details:

Product	3D Coordinate Measuring Machine
I Deal in	New
Supplier By	RB Metrolog
Packaging Material	Cartoon Box
Automation Grade	Automatic

Portable Arm Coordinate Measuring Machine

To an object's physical characteristics measurements Portable Arm Coordinate Measuring Machine is a perfect choice to select. Its accuracy and free rotation make it the best measurement in laboratories, industry, and many more. It is installed with arm-free scanning systems to operate freely around objects.

Product Details:

Supplier By	RB Metrology
Type	Coordinate Measuring Machine
I Deal in	New
Automation Grade	Semi-Automatic
MOQ	1 Set

Portable Coordinate Measuring Machine

We are counted among the top most supplier of Portable Coordinate Measuring Machines along with excellent features. It can move around three Cartesian axes to evaluate the physical characteristics of an object. Free arm rotation, lightweight and the best camera installed in it make it a significant product to use at the industrial level.

Product Details:

Product Code	498508
Maximum Volume	3.7 m (12'1")
Color	Silver
Country of Origin	India
Quality	High Quality
Usage/Application	Industrial, Laboratory

Shadow Graph Profile Projector

With expertise in the field we are offering Shadow Graph Profile Projector at nominal prices. The Vertical screen is available for optimum view with light path alignment along the horizontal direction. It can be controlled manually and automatically with configured with Computer controlled Readout Systems. Also, get outputs from the same machinery.

Product Details:

Illumination Accuracy	Along Profile ($\pm 0.05\%$), Surface ($\pm 0.075\%$)
Minimum Order Quantity	1 Set
Supplier	RB Metrology
Type	Shadow Graph Profile Projector
Features	Simple Structure, Strong Bearing Capacity

Vertical Profile Projector

We are indulged in offering the Vertical Profile Projector at reasonable prices. Its Y-Axis travels with a glide release of 200mm to determine the 2D measurements. It is containing the Optional Advance Measuring System of Metronics USA Quadrachek 221 Micro Processor Data Processor for executing its functionality accurately and efficiently.

Product Details:

Installed with	Calibration reticle
Supplier	RB Metrology
Illumination Accuracy	Along Profile ($\pm 0.05\%$), Surface ($\pm 0.075\%$)
Packaging Material	Cartoon Box
Used for	Measurement of the radius, Length, Angle, Point

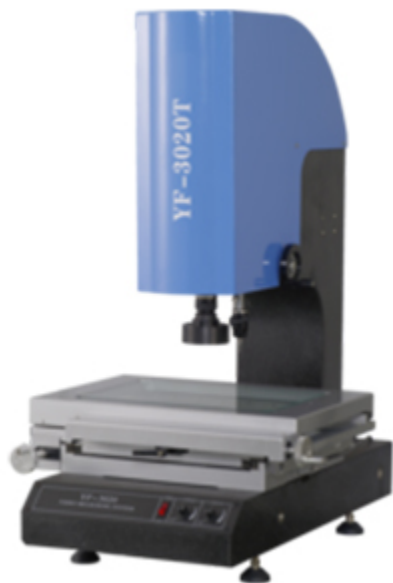

2D Manual Video Measuring Machine

2D Manual Video Measuring Machine is used for 2D measurements of small accessories such as electronics, watches, plastic, module, and many more. It can be configured with a Celeron4 CPU, hard drive, memory, and LCD monitor to see the output results. It is available at affordable prices in a safe packaging facility.

Product Details:

Light Path	Vertical
Power Supply	230V(AC), 50HZ
Used for	Measuring Cutting Tools, Crank Shafts, Long Shafts, Moulds, Die Casting Parts, etc
Supplier	RB Metrology
Country of Origin	India

Manual Video Measuring Machine

We are delivering Manual Video Measuring Machine as per the client's requirements. The machinery is used for measuring the video graphics along X.Y.Z resolution. Profile scanning, manual CNC, Macroscopic measurement, and special SPC statistics, are 2D flatness measurements realized during the functionality of this machinery. It is available with smooth operation and easy to maintain.

Product Details:

X, Y-axis Travel(mm)	200X150
Measuring Software	Advanced
Z-axis Travel(mm)	150
Power	230V(AC), 50HZ
Image detecting unit	Color CMOS camera 3 megapixels

Bridge Type Measuring Machine

To optimize laboratory, and industrial work efficiently and accurately our company is offering Bridge Type Measuring Machines at reasonable prices. The machinery is controlled through a computer-controlled and delivers excellent results. The machinery is highly efficient, durable, corrosive resistant, and has better functionality. Our expertise completely monetized its functionality before placing to customer's preferences.

Product Details:

Feed mechanism	Manually
Minimum Order Quantity	1 Set
I Deal in	New Only
Type	Bridge Type
Frequency	50/60 Hz

Contour Analysis System Machine

Contour Analysis System Machine is available per our diligent clients for their industrial and laboratory uses. High-efficiency measurement, Automated calibration function, and Software compensation are excellent features of this machinery. It high productivity and low thrill make it superb at performing.

Product Details:

Packaging Material	Cartoon Box
Speciality	Efficient, highly precise measurements
Type	Contour Analysis System Machine
Minimum Order Quantity	1 Set
Country of Origin	India

Horizontal Profile Projector

Our company is providing the Horizontal Profile Projector at reasonable prices. It moves along the horizontal axis with a glide release of 170mm travel. Its high calibration, optimum viewing with a 16"(400mm) optical lens, and many more are specific features of this projector. Along X, Y, Angle, and Radius it is rotatable and delivered effective results in.

Product Details:

Glide release	X-Axis travel
Readout Systems	Computer controlled
Screen Diameter	300mm
Quality	A Grade
Load Capacity	20 kg

Profile Projectors

RB Metrology is offering a superior quality Profile Projector having low power consumption, minimum maintenance, and long service life productivity. 12"(300mm) Vertical screen, High resolution with optical rotation range of 0-360degrees, Multi Lens mounted, glide release across the x and y axis, and many more are the best features of this projector. It is available with 1 Year of warranty. It is computer controlled easy to maintain, measure 2-dimensional data, and is available at an easy cost.

Product Details:

Quality	High Quality
Resolution	0.001mm
Minimum Order Quantity	1000 Pieces
Packaging Material	Cartoon Box
Magnification	Standard, Optional

Roundness Measuring Tester

Reckoned with a high-tech personality we are supplying the Roundness Measuring Tester at reasonable prices. Its semiautomatic measuring function, and measuring range along the X, Y, and Z axis are specific features of this tester. Its magnification measurements are 50 to 100 k. For the recording system color and laser printer can be chosen

Product Details:

Automation Grade	Automatic
Frequency	50-60 Hz
Country of Origin	India
Model Name/Number	Randcom Eic
Diameter	400mm
